Nearly 200 records, including thousands of files, that had been exposed by a former employee of Michigan Department of Corrections from 2005 to 2009, have been found by a local cybersecurity firm. In recent months, BlueLine Tactical, a Michigan cybersecurity firm based in Midland, was contacted by law enforcement agencies and other organizations around the world with confidential information from former contractor Michael Dresser, the head of the Michigan Department of Corrections' Cyber Security Branch from 2005 to 2009. Dresser was indicted in 2011 on charges of possession and distribution of child pornography. He was sentenced to 12 to 22 years in prison in December 2013. In March,

"We traced that address back to a city, county, state and then an address in Michigan," said Mark Lowe, president of BlueLine Tactical. "We then traced the IP address (Internet Protocol address) of that IP address back to the Department of Corrections and made that connection." "Based
